INDEPENDENT AUDITORS' REPORT

November 19, 2007

Honorable Mayor and Members of the City Council City of East Grand Rapids, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of East Grand Rapids, Michigan, as of and for the year ended June 30, 2007, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the management of the City of East Grand Rapids, Michigan. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information for the City of East Grand Rapids, Michigan as of June 30, 2007, and the respective changes in financial position and where applicable cash flows, thereof and the respective budgetary comparison for the general fund and local streets fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 19, 2007, on our consideration of the City of East Grand Rapids' internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The objective of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*, and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis on pages 3-10 is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of East Grand Rapids' basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the City of East Grand Rapids' basic financial statements. The combining and individual fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of basic financial statements and, in our opinion, are fairly presented, in all material respects, in relation to the basic financial statements taken as a whole.

Rehmann Loham

MANAGEMENT'S DISCUSSION AND ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the City of East Grand Rapids' financial performance provides an overview of the City's financial activities for the year ended June 30, 2007. Please read it in conjunction with the City's financial statements which begin on page 11. All amounts, unless otherwise indicated, are expressed in thousands of dollars.

FINANCIAL HIGHLIGHTS

- The City's net assets increased \$1,009,436 (or 3.9%). The governmental net assets increased by \$776,981 (or 4.5%) and the business-type net assets increased by \$232,455 (or 2.7%).
- Total expenses of all of the City's programs were \$12,542,671, an increase of \$302,846 (or 2.5%). The governmental expenses increased by \$259,237 (or 2.6%) and the business-type expenses increased by \$43,609 (or 1.8%).
- Total revenues, including all program and general revenues were \$13,552,107, a decrease of \$304,520 (or 2.2%). The governmental revenues decreased by \$379,040 (or 3.4%) and the business-type revenues increased by \$74,520 (or 2.9%). The decrease in governmental revenues is due to the donations received in the prior fiscal year for the Municipal Complex and Streetscape projects.
- The City Commission chose to establish Designated Fund Balances for the Streets and Utilities Remodel project of \$150,000 in the General Fund and \$100,000 in each of the Water/Sewer Fund and the MERF Fund for a total of \$350,000 saved towards this upcoming project.
- The City Commission has established a Designated Fund Balance of \$50,000 in the General Fund for the Reeds Lake Bike Trail Phase II project.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities (on pages 11-13) provide information about the activities of the City as a whole and present a longer-term view of the City's finances. Fund financial statements start on page 14. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than the government-wide statements by providing information about the City's most significant funds. The remaining statements provide financial information about activities for which the City acts solely as a trustee or agent for the benefit of those outside of the government.

Reporting the City as a Whole

Our analysis of the City as a whole begins on page 5. One of the most important questions asked about the City's finances is "Is the City as a whole better off or worse off as a result of the year's activities?" The Statement of Net Assets and the Statement of Activities report information about the City as a whole and about its activities in a way that helps answer this question. These statements include *all* assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The two statements mentioned above report the City's net assets and changes in them. The reader can think of the City's net assets - the difference between assets and liabilities - as one way to measure the City's financial health or financial position. Over time, increases or decreases in the City's net assets are one indicator of whether its financial health is improving or deteriorating. The reader will need to consider other nonfinancial factors, however, such as changes in the City's property tax base and the condition of the City's capital assets (roads, buildings, water and sewer lines) to assess the overall health of the City.

In the Statement of Net Assets and the Statement of Activities, the City is divided into two kinds of activities:

- Governmental activities Most of the City's basic services are reported here, including the public safety, general administration, parks and recreation and streets. Property taxes and State Shared Revenues finance most of these activities.
- Business-type activities The City charges a fee to customers to help it cover all or
 most of the cost of certain services provided. The City's water and sewer system is
 reported here.

Reporting the City's Most Significant Funds

Our analysis of the City's major funds begins on page 8. The fund financial statements provide detailed information about the most significant funds – not the City as a whole. Some funds are required to be established by State law and by bond covenants. However, the City Commission has established several other funds to help it control and manage money for particular purposes. The City's two types of funds, governmental and proprietary, use different accounting approaches.

- Governmental Funds Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps the reader to determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in a reconciliation at the bottom of the fund financial statements.
- Proprietary Funds When the City charges customers for the services it provides, whether to outside customers or to other units of the City, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Assets and the Statement of Activities. In fact, the City's enterprise fund is the same as the business-type activities we report in the government-wide statements but provides more detail and additional information, such as cash flows, for proprietary funds. We use internal service funds, such as the City's Equipment Revolving Fund and the Health Care Fund (the other component of proprietary funds) to report activities that provide supplies and services to the City's other programs and activities.

THE CITY AS A WHOLE

The City's combined net assets changed from a year ago, increasing from \$25,927,000 to \$26,936,437. Our analysis focuses on the net assets and changes in net assets of the City's governmental and business-type activities.

Table 1 Net Assets (in thousands) as of June 30, follows:

| | Governmental | | Busine | ess-type | | | |
|---------------------------------|--------------|----------|---------|-------------|----------|----------|--|
| | Activ | vities | Acti | vities | Total | | |
| | 2007 | 2006 | 2007 | 2006 | 2007 | 2006 | |
| Current and other assets | \$ 7,125 | \$ 9,016 | \$2,532 | \$2,097 | \$9,657 | \$11,113 | |
| Capital assets | 25,094 | 24,270 | 7,433 | 7,736 | 32,527 | 32,006 | |
| Total assets | 32,219 | 33,286 | 9,965 | 9,833 | 42,184 | 43,119 | |
| I am a tamma daht autotam din a | 12.007 | 12.450 | 010 | 90 <i>5</i> | 12 007 | 14.254 | |
| Long-term debt outstanding | 12,997 | 13,459 | 810 | 895 | 13,807 | 14,354 | |
| Other liabilities | 1,121 | 2,503 | 320 | 336 | 1,441 | 2,839 | |
| Total liabilities | 14,118 | 15,962 | 1,130 | 1,231 | 15,248 | 17,193 | |
| Net assets: | | | | | | | |
| Invested in capital assets net | | | | | | | |
| of related debt | 12,097 | 11,033 | 6,623 | 6,149 | 18,720 | 17,182 | |
| Restricted | 1,750 | 2,169 | - | - | 1,750 | 2,169 | |
| Unrestricted | 4,254 | 4,122 | 2,212 | 2,453 | 6,466 | 6,575 | |
| Total net assets | \$18,101 | \$17,324 | \$8,835 | \$8,602 | \$26,936 | \$25,926 | |

Net assets of the City's governmental activities increased by 4.5 percent (\$18,101,548 compared to \$17,324,566). Unrestricted net assets, the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements, increased \$132,330. Restricted net assets, those restricted mainly for capital projects and special purposes such as street cleaning or maintenance decreased by \$418,589.

The net assets of our business-type activities increased by 2.6 percent (\$8,834,889 compared to \$8,602,434).

Table 2 Changes in Net Assets (in thousands) as of June 30, follows:

| Net assets, end of year | \$18,101 | \$17,324 | \$8,835 | \$8,602 | \$26,936 | \$25,926 |

Governmental Activities

Revenues for the City's governmental activities decreased \$379,040 while expenses increased \$259,237. The decrease in revenues is due to donations received for the Municipal Complex, and Streetscape projects in the prior fiscal year. Property taxes increased \$392,461. State Shared revenues decreased by \$27,384.

Business-type Activities

Revenues for the business-type activities increased by \$74,520.

Expenses increased in the business-type activities by \$43,609. Wholesale water and sewer charges from the City of Grand Rapids increased over the previous year due to rate increases.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

At the end of fiscal year 2007 the governmental funds reported a combined fund balance of \$4,130,295 which is \$272,909 less than last year. The decrease is due to bond proceeds for the Municipal Complex project and the Streetscape project being spent during the last year on these projects. The General Fund fund balance increased by \$121,431. The undesignated portion of the General Fund fund balance actually decreased by \$53,845. The City Commission established two new fund balance designations in the General Fund. There is \$150,000 designated towards the Streets and Utilities Remodel and \$50,000 designated for the Reeds Lake Bike Trail Phase II. The General Fund Undesignated Fund Balance at June 30, 2007 is \$2,016,608 which is 24.5% of 2006-2007 expenditures. Available fund balance will be used to cover a budget deficit in 2007-2008.

General Fund Budgetary Highlights

Actual expenditures in the General Fund were \$289,064 below final budget amounts. Expenditures that were below budgeted amounts included Public Safety, Public Works and Recreation activities.

Revenues were \$273,467 more than the amended budget. The most significant increase in revenues from the original budget was in interest earnings due to the favorable interest rate environment during the fiscal year.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2007 the City had \$31,912,434 invested in a broad range of capital assets including land, buildings, public safety equipment, roads, parks and water and sewer lines. This amount includes a net increase (including additions and deductions) of \$598,486 or 1.9% over last year. The increase is due to capital asset purchases of \$2,207,111 offset by depreciation of \$1,608,428 and net disposals of \$197. Additional information on capital assets can be found in note 4 on pages 33-35 of the notes to the financial statements.

Long-term Debt

At June 30, 2007 the City had \$13,807,552 in long-term debt outstanding. This is a decrease of \$323,548 from last year. Outstanding debt includes \$1,560,000 for Wealthy Pool Unlimited Tax General Obligation Bonds, \$8,665,000 for the Municipal Complex, \$2,785,000 for the Wealthy Streetscape and \$810,140 in Drain Bonds for business-type activities.

The State of Michigan has statutory and constitutional debt provisions that allow for debt limits of 10 percent of the City's assessed value. This means that the City could have debt outstanding of \$64.2 million. The City is well below statutory and constitutional debt limits with outstanding debt of \$14.0 million. Additional information on long-term debt can be found in note 5 on pages 35 and 36 of the notes to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The budget for next year includes a lower millage rate than was levied for the year ending June 30, 2007. In fiscal year end June 30, 2007 the millage rate levied was 13.6162 and in fiscal year ending June 30, 2008 the millage rate levied is 13.5195. These rollbacks are due to the City being in a Headlee rollback situation.

Another factor influencing property tax revenues is Proposal A. The statewide tax reform act limits growth in taxable value on any individual property to the lesser of inflation or 5 percent. Because some properties may increase in value by less than inflation, the mathematical result of this is that the total taxable value may grow less than inflation. In addition, the City of East Grand Rapids is a land-locked community so there are seldom new additions adding value to the tax roll other than remodeling or renovation of properties.

A developer has purchased a large portion of the City's downtown Gaslight Village property and has begun a \$50,000,000 dollar renovation and improvement that includes both commercial and residential properties. It is anticipated that this project will be completed over the next five to seven years. In connection with this redevelopment the City has completed a Streetscape project of Wealthy Street which is the main street of the Gaslight Village district. This project was financed by the \$3,140,000 Michigan Transportation Fund Bonds.

The City Commission has begun planning for the renovation of the City's Streets and Utilities Building. The City Commission reserved \$350,000 in the Fiscal Year ended June 30, 2007 and has budgeted to reserve an additional \$450,000 in the budget for fiscal year end June 30, 2008. This gives the City \$800,000 reserved towards this project. City Staff will begin working with architects and engineers during the next year to determine actual costs for this project.

The City is self funded for Health Care benefits. Health Care costs had been increasing 15% to 30% each of the past five years. At the end of the year ended June 30, 2004, the Health Care Fund had a fund balance of only \$8,882. Beginning January 1, 2005 the City implemented a Consumer Directed Health Plan for all employees. This plan has a significantly higher deductible for each employee and larger co-pays for out-of-network services. During 2004, co-pays on prescription benefits were increased. These changes were made in an effort to control increasing costs of health care benefits. The current fund balance at June 30, 2007 is \$840,674. The increase in fund balance over the past three years is due to savings from the implementation of the Consumer Directed Health Plan.

The City has responded to the economic downturn and pressure on revenues by trying to keep program expenses constant, increasing some user fees, issuing debt for capital projects and making changes to employee benefits.

The General Fund budget for next year is \$197,400 more than last fiscal year. Budgeted expenditures exceed budgeted revenues by \$185,100. The excess will be funded from available fund balance. The City ended the fiscal year June 30, 2007 with an undesignated fund balance of 24.5 percent of budgeted operating expenditures. The General Fund budget also includes a transfer to the Street Funds in the amount of \$700,000 for street construction. This is the dollar amount of the one and one-third mills that the City Commission chooses to dedicate annually to road projects. \$280,000 of the \$700,000 will be used to pay the debt service of the Michigan Transportation Fund bonds. Currently the City's general fund revenues are sufficient to meet operating expenditures.

As for the City's business-type activities, the budget for next year holds water and sewer rates constant.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Finance Director's Office at 750 Lakeside Drive, SE, Grand Rapids, MI 49506.

Reconciliation of Fund Balances on the Balance Sheet for Governmental Funds to Net Assets of Governmental Activities on the Statement of Net Assets June 30, 2007

Fund balances - total governmental funds

\$ 4,130,295

Amounts reported for *governmental activities* in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources, and therefore are not reported in the fund statements.

Add - nondepreciable capital assets 2,124,000 Add - depreciable capital assets, net 21,836,043

Certain assets, such as special assessments receivable are not due and receivable in the current period and therefore are offset with deferred revenue in the fund statements.

Add - deferred revenue on special assessments receivable

49,017

Internal service funds are used by management to charge the costs of certain activities, such as insurance and other centralized costs, to individual funds. The assets and liabilities of internal service funds are included in governmental activities.

Add - net assets of governmental activities accounted for in internal service funds

3,133,548

Certain liabilities, such as bonds payable, are not due and payable in the current period, and therefore are not reported in the fund statements.

| Deduct - bonds payable | (12,997,412) |
|--|--------------|
| Add - bond issuance costs | 185,322 |
| Deduct - compensated absences | (215,195) |
| Deduct - accrued interest on long-term liabilities | (144,070) |

Net assets of governmental activities

\$ 18,101,548

Reconciliation of the Statement of Revenue, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2007

| Net changes in fund balances - total governmental funds | \$ (272,909) |
|---|------------------|
| Amounts reported for <i>governmental activities</i> in the statement of activities are different because: | |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. | |
| Add - capitalized assets | 2,052,391 |
| Deduct - depreciation expense | (1,086,015) |
| Special assessments receivable are long-term in nature and are collectable over several years. However, the current receipts are reflected as revenues on the fund statements. | |
| Deduct - decrease in special assessment deferred revenue | (6,441) |
| Bond proceeds provide current financial resources to governmental funds in the period issued, but issuing bonds increases long-term liabilities in the statement of net assets. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. | |
| Add and along the state of the | 240,000 |
| Add - principal payments on long-term liabilities Deduct - amortization of bond discount | 240,000 (900) |
| Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. | |
| Add - decrease in accrued interest on bonds | 1,756 |
| Add - decrease in the accrual for compensated absences | 6,944 |
| Deduct - amortization of bond issuance costs | (7,917) |
| Internal service funds are used by management to charge the costs of certain services to individual governmental funds. The net revenue (expense) attributable to those funds is | |

The accompanying notes are an integral part of these financial statements.

Deduct - loss from governmental activities in internal service funds

reported with governmental activities.

Change in net assets of governmental activities

(149,928)

NOTES TO FINANCIAL STATEMENTS

Notes to Financial Statements

For the Year Ended June 30, 2007

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the City of East Grand Rapids conform to generally accepted accounting principles as applicable to governments. The following is a summary of the most significant policies:

The Reporting Entity

As required by generally accepted accounting principles, these financial statements present the City and its component unit, an entity for which the City is considered to be financially accountable. Blended component units, although legally separate entities are, in substance, part of the City's operations, so data from these units are combined with data of the primary government. Discretely presented component units are reported in a separate column in the financial statements to emphasize they are legally separate from the City. The City has no discretely presented component units.

Blended Component Unit - City of East Grand Rapids Building Authority

The Building Authority is governed by a board appointed by the City Commission. For financial reporting purposes, the building authority is reported as if it were a part of the City's operations because its sole purpose is to finance and construct the City's public buildings. The Building Authority had no activity during the current year.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and it's component unit. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Notes to Financial Statements

For the Year Ended June 30, 2007

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements, except for agency funds, which do not have a measurement focus. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. After March 1 of each year, the County pays the City, and is responsible for collecting any outstanding real property taxes as of that date. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period or within one year for expenditure-driven grants. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service and compensated absences expenditures are recorded only when payment is due.

Property taxes, intergovernmental revenue, charges for services and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The *General Fund* is the general operating fund of the City. The fund is used to account for all financial transactions except those required to be accounted for in another fund. Revenues are derived primarily from property taxes, state shared revenues and charges for services.

The *Local Streets Fund* is used to account for the receipt and expenditure of gas and weight taxes, distributed by the State of Michigan, that are restricted for use on local streets by Act 51.

The City reports the following major proprietary fund:

The Water and Sewer Enterprise Fund is used to account for the operations of the City's sewer and water department that provides sewer and water services to most residents of the City on a user charge basis.

Additionally, the City reports the following fund types:

The *Special Revenue Funds* are used to account for proceeds from specific revenue sources (other than or capital projects) and related expenditures which are restricted for specific purposes by administrative action or law.

The *Debt Service Funds* account for the resources accumulated and payments made for principal and interest on long-term debt of governmental funds.

Notes to Financial Statements

For the Year Ended June 30, 2007

The *Capital Projects Fund* is used to account for the accumulation and disbursement of funds for capital projects.

The *Internal Service Funds* account for equipment and vehicle purchases, repairs and maintenance provided to the City departments on a cost reimbursement basis and the accumulation of resources and costs related to the City's self-insurance program.

The *Agency Fund* is used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations or other governments. The agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989 generally are followed in both the government—wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise fund are charges for services. The principal operating revenues of the City's internal service funds are charges to City departments for equipment utilization and insurance coverage. Operating expenses for the enterprise funds include depreciation on capital assets, labor, supplies and contracted services. Operating expenses for the internal funds include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Budgets and Budgetary Accounting

Comparisons to budget are presented for General and Special Revenue Funds. General and Special Revenue Funds adopt a legal budget with remaining funds maintaining budgets as a management control device. The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. Prior to May 1, the City Manager submits to the City Council a proposed operating budget for the fiscal year commencing the following July 1.
- 2. Public hearings are conducted to obtain taxpayer comments.
- 3. By the second week of June the budget is legally enacted through passage of a resolution.

Notes to Financial Statements

For the Year Ended June 30, 2007

- 4. Formal budgetary integration is employed for the governmental fund types as a management control device.
- 5. Budgets for the General and Special Revenue Funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). Annual budgets lapse at fiscal year end.
- 6. Adoption and amendments of all budgets used by the City are governed by Public Act 621, which was followed during the year ended June 30, 2007. The appropriations resolution is based on the projected expenditures budget of the department heads of the City. Any amendment to the original budget must meet the requirements of Public Act 621. Any revisions that alter the total expenditures of any fund must be approved by the City Council. The City Manager is authorized to transfer budgeted amounts within an activity subject to the condition that the total expenditures do not exceed the approved appropriations by activity. Supplemental appropriations were necessary during the year.

Budgets for expenditures are adopted on a fund total basis in both the General Fund and in the Special Revenue funds. Thus, expenditures may not legally exceed the budgeted amounts by fund for the General and Special Revenue funds.

Cash and Cash Equivalents

For the purpose of the statement of cash flows, the City considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

Receivables

All receivables are recorded at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

Drainage District Facility Rights

The City is a participant in the Silver Creek Drainage District, an intra-county drain in Kent County owned and operated by the Kent County Drain Commission. Each member municipality has pledged its full faith and credit in repayment of their allocated shares of long-term debt of the system.

The City accounts for the group of transactions substantially in accordance with APB 17, Intangible Assets. The contract payable to the Kent County Drain Commission is presented as long-term debt. The City's investment in the intangible asset is presented as drainage facility rights.

The investment in drainage facility rights is amortized over the life of the debt issue. Accumulated amortization amounted to \$915,592 at June 30, 2007. Current year amortization expense amounted to \$76,883 for the year ended June 30, 2007.

Due to/from Other Funds

During the course of its operations, the City has numerous transactions between funds to finance operations, to provide services, construct assets and service debt. To the extent that certain transactions between funds had not been paid or received as of fiscal year end, balances of interfund accounts receivable or payable have been recorded.

Notes to Financial Statements

For the Year Ended June 30, 2007

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the governmental and business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated capital assets are valued at their estimated fair market value on the date received. The amount reported for infrastructure includes only assets added since 2003.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable.

No interest expense has been incurred or capitalized on capital assets reported in proprietary funds.

Depreciation on capital assets (including infrastructure), is computed using the straight-line method over the following estimated useful lives:

| | <u>Years</u> |
|----------------------------|--------------|
| | |
| Water and sewage systems | 20-50 |
| Buildings and improvements | 10-35 |
| Vehicles and equipment | 4-20 |
| Infrastructure | 5-20 |

Deferred Revenue

Governmental funds report *deferred revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period or for resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *deferred revenue* reported in the governmental funds were as follows:

| General Fund – fees received in advance | \$ 17,196 |
|---|-----------|
| Special assessment fund – special assessments | 42,575 |
| | · |
| | \$ 59,771 |

Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, the long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. For new bond issuances after the implementation of GASB Statement No. 34, bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

Notes to Financial Statements

For the Year Ended June 30, 2007

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as general government expenditures.

Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused sick and vacation benefits. The City follows the accounting and reporting principles outlined in GASB 16, with regard to employee vacation and sick leave.

Vacation time is credited to each employees account monthly. Employees that are allowed to carryover up to a maximum of two years worth of earned vacation. Unused vacation days are paid to employees upon termination under limits that vary by employee group. Employees accumulate sick leave at the rate of one day per month of employment. Unused sick leave, under limits that vary by employee group, is payable to employees (or their beneficiaries) with ten or more years of continuous service at the rate of \$1.00 per day, times the years of continuous service upon retirement or death. The vesting method is used to determine the amount of sick leave accrued.

The liability for these compensated absences is recorded as long-term debt in the government-wide statements. A liability for these amounts is reported in the governmental funds only for employee terminations as of year-end while the proprietary funds report the liability as it is incurred.

Property Taxes

City property taxes are attached as an enforceable lien on property as of July 1. Taxes are levied July 1 and are due without penalty on or before August 15. These summer tax bills include the City's own property taxes and taxes billed on behalf of the school district (State Education Tax) within the City limits. Real property taxes not collected as of March 1 are returned to the County for collection, which advances the City 100% for the delinquent real property taxes. Collection of delinquent personal property taxes remains the responsibility of the City Treasurer.

Property taxes levied in July of each year are recognized as revenue in that year.

Interfund Transactions

During the course of normal operations, the City has numerous transactions between funds, including expenditures and transfers of resources to provide services and to service debt. The accompanying financial statements generally reflect such transactions as transfers. Operating subsidies are also recorded as transfers.

Notes to Financial Statements

For the Year Ended June 30, 2007

Investments

State statutes authorize the City to invest in the following:

- a. Bond, securities, other obligations and repurchase agreements of the United States, or an agency or instrumentality of the United States.
- b. Certificates of deposit, savings accounts, deposit accounts or depository receipts of a qualified financial institution.
- c. Commercial paper rated at the time of purchase within the two highest classifications established by not less than two standard rating services and that matures not more than 270 days after the date of purchase.
- d. Bankers acceptances of United States banks.
- e. Obligations of the State of Michigan and its political subdivisions that, at the time of purchase are rated as investment grade by at least one standard rating service.
- f. Mutual funds registered under the Investment Company Act of 1940 with the authority to purchase only investment vehicles that are legal for direct investment by a public corporation.
- g. External investment pools as authorized by Public Act 20 as amended through 12/31/97.

2. EXCESS OF EXPENDITURES OVER APPROPRIATIONS

During the year ended June 30, 2007, expenditures were incurred in excess of the amounts appropriated in the amended budget of the general fund and special revenue fund types of the primary government as follows:

| | Amended Budget | Actual | Variance |
|-------------------|-------------------|------------|-----------|
| Major Street Fund | \$ 837,500 | \$ 868,794 | \$ 31,294 |

3. DEPOSITS AND INVESTMENTS

The captions on the financial statements relating to cash and cash equivalents are as follows:

| | Governmental Activities | Business-type Activities | Fiduciary Funds | Total |
|--|---------------------------|-----------------------------|--------------------|---------------------------|
| Cash and cash equivalents Investments | \$ 1,856,492 4,394,292 | \$ 486,550 1,532,514 | \$ 4,636 | \$ 2,347,678 5,926,806 |
| | \$ 6,250,784 | \$ 2,019,064 | \$ 4,636 | \$ 8,274,484 |

Notes to Financial Statements

For the Year Ended June 30, 2007

The cash and investments above are disclosed in the notes as follows:

| | \$ 8.274.484 |
|---|--------------|
| Cash on hand | 900 |
| Investments | 2,197,281 |
| Certificates of deposit (due within one year) | 3,729,525 |
| Checking/savings accounts | \$ 2,346,778 |

These deposits are in five (5) financial institutions located in Michigan. State policy limits the Treasurer's investing options to financial institutions located in Michigan. All accounts are in the name of the City and a specific fund or common account. They are recorded in City records at fair value.

The City chooses to disclose its investments by specifically identifying each. As of year-end, the City had the following investments:

Investments

| | Maturity | Fair Value | Rating |
|--|---------------|--|---------------------|
| General Electric Capital Corporation Commercial Paper Kent County Investment Pool | 9/6/07 N/A | \$ 201,890 1,995,391 \$2,197,281 | S&P A-1+ Unrated |

The above investments do not include certificates of deposit which are classified as investments for financial statement purposes as their original maturity date is greater than three months.

Investment and Deposit Risk

Interest Rate Risk. State law limits the allowable investments and the maturities of some of the allowable investments as identified in Note 1 of the summary of significant accounting policies. The City's investment policy does not have specific limits in excess of state law on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The maturity date for each investment is identified above for investments held at year-end.

Credit Risk. State law limits investments to specific government securities, certificates of deposits and bank accounts with qualified financial institutions, commercial paper with specific maximum maturities and ratings when purchased, bankers acceptances of the City's specific financial institutions, qualified mutual funds, and qualified external investment pools as identified in Note 1 of the summary of significant accounting policies. The City's investment policy does not have specific limits in excess of state law on investment credit risk. The rating for each investment is identified above for investments held at year-end.

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned. As of year-end, \$5,572,342 of the City's bank balance of \$6,071,442 was exposed to custodial credit risk because it was uninsured and uncollateralized.

Notes to Financial Statements

For the Year Ended June 30, 2007

Custodial Credit Risk – Investments. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State law does not require and the City does not have a policy for investment custodial credit risk. Of the \$2,197,281 in investments, the City has a custodial credit risk exposure of \$2,197,281 because the related securities are uninsured, unregistered and held by the government's brokerage firm which is also the counterparty for these particular securities. Of the above mutual fund investments, the City's custodial credit risk exposure cannot be determined because the mutual funds do not consist of specifically identifiable securities.

Concentration of Credit Risk. State law limits allowable investments but does not limit concentration of credit risk as identified in Note 1 of the summary of significant accounting policies. The City's investment policy does not have specific limits in excess of state law on concentration of credit risk. Concentrations of investments are noted above.

4. CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2007 was as follows:

| | Balance July 1, 2006 | Additions | Deletions | Balance June 30, 2007 |
|---|-------------------------|------------|------------|--------------------------|
| Governmental activities | | | | |
| Capital assets, not being depreciated: | | | | |

6. INTERFUND TRANSACTIONS

Transfers in and out for the year ended June 30, 2007 are as follows:

| | Trans | | |
|---|--------------------------|-----------------------------------|------------------------------------|
| | Local Streets Fund | Nonmajor Governmental Funds | Total |
| Transfers out General fund Internal Service Funds Special Assessments | \$ 507,000 - 9,400 | \$ 510,000 375,000 280,900 | \$ 1,017,000 375,000 290,300 |
| | \$ 516,400 | \$ 1,165,900 | \$ 1,682,300 |

Notes to Financial Statements

For the Year Ended June 30, 2007

Transfers are used to: (1) move unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations and (2) move revenues from the fund that is required to collect them to the fund that is required or allowed to expend them.

7. PENSION PLANS

Defined Benefit Plan Description

The City participates in the Municipal Employees' Retirement System of Michigan (MERS), an agent multiemployer defined benefit pension plan providing retirement, death and disability benefits covering certain bargaining units. The System is administered by the MERS retirement board. Act No. 427 of the Public Acts of 1984, as amended, establishes and amends the benefit provisions of the participants in MERS. A publicly available financial report that includes financial statements and required supplementary information for MERS may be obtained by writing to the Municipal Employees Retirement System of Michigan, 1134 Municipal Way, Lansing, Michigan 48917 or by calling (800) 767-6377.

The City is required to contribute at an actuarially determined flat rate, which for the current year was \$408,900. Employees are not required to contribute to the Plan. The contribution requirements of the City are established and may be amended by the MERS Retirement Board.

For the year ended June 30, 2007, the City's annual pension cost of \$384,352 for MERS was equal to the City's required and actual contributions. The required contribution was determined as part of the initial entry into the plan using the entry age actuarial cost method. The actuarial assumptions included: (a) a rate of return on the investment of present and future assets of eight (8.0) percent; (b) projected salary increases of four and one-half (4.5) percent per year compounded annually based on inflation, and (c) additional projected salary increases of 0.0% to 4.2% per year based on an age-related scale to reflect merit, longevity and promotional salary increases. The actuarial value of MERS assets was determined on the basis of a valuation method that assumes the fund earns the expected rate of return and includes an adjustment to reflect fair value. The City's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at December 31, 2006, the date of the latest actuarial valuation, was 30 years.

Trend Information

| Year Ended | Annual Pension Cost (APC) | Percentage of APC Contributed | Net Pension Obligation | | |
|------------|---------------------------------|-------------------------------------|------------------------------|--|--|
| 2005 | \$ 191,707 | 100% | \$ - | | |
| 2006 | 267,042 | 100% | - | | |
| 2007 | 384,352 | 100% | - | | |

Notes to Financial Statements

For the Year Ended June 30, 2007

Defined Contribution Pension Plans

The City also maintains three defined contribution retirement plans offered by MERS and administered by ICMA Retirement Corporation (ICMA). The City Services Defined Contribution Plan covers all City service employees hired on or after July 7, 1999 and all City services employees hired prior to July 7, 1999 who elected to convert from the defined benefit plan on July 7, 1999. The Non-Union Defined Contribution Plan covers all non-union employees hired on or after July 1, 1999 and all non-union employees hired prior to July 1, 1999 who elected to convert from the defined benefit plan on July 1, 1999. The Public Safety Defined Contribution Plan covers all public safety officers, lieutenants and sergeants hired on or after January 1, 2002 and all officers, lieutenants and sergeants hired prior to January 1, 2002 who elected to convert to the defined contribution plan on January 1, 2002.

City Services Defined Contribution Plan

The City Services Plan requires participants and the City to each contribute 4% of the participants' salaries to the plan. The City's contribution for fiscal year 2007 was \$26,232 and the employees' contribution was also \$26,232.

Non-Union Defined Contribution Plan

The Non-Union Plan gives participants the option to contribute up to 1% of their salary to the plan. The City is required to contribute 14% of the participants' salary and match the employees' optional contribution. The City's contribution for fiscal year 2007 was \$219,465 and the employees' contribution was \$14,570.

Public Safety Defined Contribution Plan

The Public Safety Plan requires participants to contribute 3.81% of their salary to the plan. The City is required to contribute 15% of the participants' salary. The City's contribution for fiscal year 2007 was \$220,463 and the employees' contribution was \$55,493.

Notes to Financial Statements

For the Year Ended June 30, 2007

8. OTHER POST EMPLOYMENT BENEFITS

In addition to pension benefits, the City extends medical insurance coverage to retirees. The employer-paid benefit is provided upon the employee attaining 55 years of age, with 25 years of service to the City. Upon that attainment, the employee and eligible dependents, as applicable, are provided with medical insurance equivalent to that provided to existing employees in their classification until they are eligible for federal Medicare coverage. The City has 20 individuals/family groups who are receiving benefits. The benefits are financed with contributions by various City funds to the Health Insurance Fund, based on retirees' claims and a provision for estimated claims incurred but not yet reported to the City. Current year expenses for covered individuals were \$272,772.

9. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City manages its risk by purchasing commercial insurance for liability and property insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

The City manages its workers' compensation risk by participating in the Michigan Municipal Workers' Compensation Self-Insurance Fund (MMWCSIF), a public entity risk pool providing workers' compensation coverage to its participating members. The City pays an annual premium to MMWCSIF for its workers' compensation coverage. The MMWCSIF is self-sustaining through member premiums and provides statutory workers' compensation coverage to its members by internally assuring certain risks and reinsuring risks through commercial companies. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

The City is self-insured for employees' health benefits and accounts for and finances its uninsured risks of loss in the Health Care Fund (an internal service fund). Under this program, the Health Care Fund provides specific coverage for up to a maximum of \$40,000 per covered individual and certain excess of coverage provided by the fund and for all other risks of loss. Settled claims have not exceeded the commercial coverage in any of the past three fiscal years.

Notes to Financial Statements

For the Year Ended June 30, 2007

All funds of the City participate in the program and make payments to the Health Care Fund based on experience estimates of the amounts needed to pay prior and current year claims and to establish a reserve for catastrophic losses. The available net assets at June 30, 2007 are \$840,674 and are reported in the Health Insurance Fund. The claims liability of \$62,392 reported in the fund at June 30, 2007, is based on the requirements of GASB 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of loss can be reasonably estimated.

| Fiscal Year Ended June 30 | Balance at Beginning of Year | Claims and Changes in Estimates | Claims Payments | Balance at End of Year |
|---------------------------------|------------------------------------|---------------------------------------|--------------------|------------------------------|
| 2006 | \$ 85,061 | \$ 647,783 | \$ (665,997) | \$ 66,847 |
| 2007 | 66,847 | 717,802 | (722,257) | 62,392 |

10. CONTINGENT LIABILITIES

The City is party to various legal proceedings and claims which normally occur in government operations. Although the outcome of the legal proceedings and claims is not presently determinable, it is the opinion of the City's management that the resolution of these matters will not have a material adverse effect on the financial condition of the City.

11. STATE CONSTRUCTION CODE ACT

P.A. 245 of 1999, section 22(1) of the State Construction Code Act, requires fees generated by enforcing agencies or construction board of appeals bear a reasonable relationship to the actual cost of performing those services.

The fees generated by the City's enforcing agencies and the costs of providing those services were as follows for the year ended June 30, 2007:

| Revenues Building permits Other permits | \$ 23,652 10,323 |
|---|------------------------|
| Total revenues | 33,975 |
| Expenditures | |
| Salaries and wages | 51,129 |
| Payroll taxes and fringe benefits | 28,742 |
| Inspection services | 4,565 |
| Automobile expenses | 4,773 |
| Total expenditures | 89,209 |
| Deficiency of revenues under expenditures | \$ (55,234) |

INTERNAL CONTROL AND COMPLIANCE

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

November 19, 2007

Honorable Mayor and Members of the City Council East Grand Rapids, Michigan

We have audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of East Grand Rapids, Michigan, as of and for the year ended June 30, 2007 which collectively comprise the City's basic financial statements as listed in the table of contents, and have issued our report thereon dated November 19, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City of East Grand Rapids, Michigan's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of East Grand Rapids, Michigan's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City of East Grand Rapids, Michigan's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the City of East Grand Rapids, Michigan's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles, such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the City of East Grand Rapids, Michigan's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as identified above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of East Grand Rapids, Michigan's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the City of East Grand Rapids, Michigan in a separate letter dated November 19, 2007.

This report is intended solely for the information and use of the City Council, management, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Rehmann Lobson

November 19, 2007

To the City Council of the City of East Grand Rapids East Grand Rapids, Michigan

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of East Grand Rapids, Michigan, for the year ended June 30, 2007, and have issued our report thereon dated November 19, 2007. Professional standards require that we provide you with the following information related to our audit.

Our Responsibility Under Auditing Standards Generally Accepted in the United States of America and Government Auditing Standards

As stated in our engagement letter dated June 5, 2007, our responsibility, as described by professional standards, is to plan and perform our audit to obtain reasonable, but not absolute, assurance about whether the financial statements are free of material misstatement and are fairly presented in accordance with accounting principles generally accepted in the United States of America. Because an audit is designed to provide reasonable, but not absolute assurance and because we did not perform a detailed examination of all transactions, there is a risk that material misstatements may exist and not be detected by us.

As part of our audit, we considered the internal control of the City of East Grand Rapids, Michigan. Such considerations were solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we performed tests of the City of East Grand Rapids, Michigan's compliance with certain provisions of laws, regulations, contracts, and grants. However, the objective of our tests was not to provide an opinion on compliance with such provisions.

Significant Accounting Policies

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we advised management about the appropriateness of accounting policies and their application. The significant accounting policies used by the City of East Grand Rapids, Michigan are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year. We noted no transactions entered into by the City of East Grand Rapids, Michigan during the year that were both significant and unusual, and of which, under professional standards, we are required to inform you, or transactions for which there is a lack of authoritative guidance or consensus.

Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were:

- Management's estimate of the useful lives of depreciable capital assets is based on the length of time it is believed that those assets will provide some economic benefit in the future.
- Management's estimate of the liability for uninsured risks of loss, including incurred but not reported claims, which are accounted for in certain of the City's internal service funds and for which the City utilizes the services of an independent third-party risk management consultant to estimate the liability. We relied upon the work of the third-party expert in determining that the liability is reasonable in relation to the financial statements taken as a whole.

We evaluated the key factors and assumptions used to develop these estimates in determining that they are reasonable in relation to the financial statements taken as a whole.

Audit Adjustments

For purposes of this letter, professional standards define an audit adjustment as a proposed correction of the financial statements that, in our judgment, may not have been detected except through our auditing procedures. An audit adjustment may or may not indicate matters that could have a significant effect on the City of East Grand Rapids, Michigan' financial reporting process (that is, cause future financial statements to be materially misstated). In our judgment, none of the adjustments we proposed, whether recorded or unrecorded by the City of East Grand Rapids, Michigan, either individually or in the aggregate, indicate matters that could have a significant effect on the City of East Grand Rapids, Michigan's financial reporting process.

In addition, the attached schedule summarizes uncorrected misstatements of the financial statements. Management has determined that their effects are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Issues Discussed Prior to Retention of Independent Auditors

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the City of East Grand Rapids, Michigan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Difficulties Encountered in Performing the Audit

We encountered no difficulties in dealing with management in performing our audit.

This letter and the accompanying memorandum are intended for the use of the Board, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Rehmann Johann

City of East Grand Rapids, Michigan

Comments and Recommendations

For the Year Ended June 30, 2007

In planning and performing our audit of the financial statements of the City of East Grand Rapids, Michigan, as of and for the year ended June 30, 2007, in accordance with auditing standards generally accepted in the United States of America, we considered the City's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control that we consider to be material weaknesses, as defined above.

Other Matters

Documentation of Independent Review of Journal Entries

During our review of internal control procedures, we noted that while the City has a procedure in place to provide for independent review of all journal entries, the review is not consistently documented by the reviewer initialing and dating the journal entry upon approval. We recommend that all journal entries be initialed and dated by a designated reviewer other than the person preparing the entry.

Segregation of Incompatible Duties – Utility Clerk

During our review of the City's internal controls over utility billings, we noted that a single individual is responsible for calculating, printing, and mailing utility bills, as well as participating in the cash receipting function. We recommend the City seek to segregate these duties as much as possible and/or introduce an additional element of supervision and review to mitigate the risk of assigning these duties to a single individual.

City of East Grand Rapids, Michigan

Comments and Recommendations

For the Year Ended June 30, 2007

Posting of Year-End Adjustments

During the performance of our audit procedures, we noted that various year end adjustments had not been posted to the City's books. In most cases, management had identified the appropriate adjustments to be made, and provided supporting documentation for the amounts involved. However, the adjustments were saved to be posted as part of the audit process. The changing landscape of auditing standards has resulted in a greater emphasis being placed on entries that are considered to be "audit adjustments", as well as stricter requirements of what auditors must now report as "control deficiencies". Inasmuch as the City already has procedures in place to identify and quantify the types of GAAP adjustments required at year-end, we recommend that in future periods the City actually post these entries to its internal books in advance of the annual audit.

New Accounting Standard

The Governmental Accounting Standards Board recently issued Statements No. 43 *Financial Reporting for Post Employment Benefit Plans other Than Pension Plans*. Statement No. 43 will become effective for the City for fiscal year 2008-2009 and will require additional disclosures, an actuarial valuation of those employee benefits granted to retirees and additional expenses to be recognized in the government-wide financial statements. We have discussed this new statement with management, and we will be working with the City to help implement this new accounting standard.

Schedule of Adjustments Passed (SOAP) For the June 30, 2007 Audit

In accordance with the provisions of SAS 89, *Audit Adjustments*, we have prepared the following schedule of proposed audit adjustments, which we believe are immaterial both individually and in the aggregate. Also in accordance with SAS 89, we are providing this schedule to both management and the audit committee to receive their assurance that they agree that the amounts listed below are not material to the financial statements, either individually or in the aggregate, and do not need to be recorded.

| _ | Effect of Passed Adjustment - Over(Under)Statement | | | | | | | |
|--|--|-------------|--------------|----------|--------------|--|--|--|
| _ | | Beginning | | | | | | |
| _ | Assets | Liabilities | Fund Balance | Revenue | Expenditures | | | |
| Governmental Activities General Fund | | | | | | | | |
| Accrued interest understatement | (5,707) | - | - | (5,707) | - | | | |
| Nonmajor Govt Funds | | | | | | | | |
| Accrued interest understatement | (1,639) | - | - | (1,638) | - | | | |
| Internal Service Funds | | | | | | | | |
| Accrued interest understatement | (5,044) | - | - | (5,044) | <u>-</u> | | | |
| Total Governmental Activities | (12,390) | - | - | (12,389) | | | | |
